

# Harvard Summer School

HARVARD DIVISION OF CONTINUING EDUCATION

February 4, 2025

Lara Su Ertaul  
76 Milland Drive  
Mill Valley, California 94941  
United States

Dear Lara,

Congratulations! I am pleased to inform you that you have been approved to enroll in the Harvard Secondary School Program. You have been chosen from amongst an exceptional applicant pool based on your strong academic record and thoughtful application. We commend you on your admission to this highly selective program.

Much of your experience this summer will resemble that of a Harvard College student. The Harvard Secondary School Program is not a high school program; it is a college program for high school students. We encourage independence in our students, who are responsible for planning their own time and managing the demands of rigorous college courses.

If you plan to join us, please accept your admittance into the program (reply to offer button under this message) by one of the following deadlines in correspondence with your early, regular, or late application acceptance.

- Early Admission: Tuesday, February 18, 2025
- Regular Admission: Tuesday, March 25, 2025
- Late Admission: Within 2 weeks of offer of admission

If you do not accept your admittance by the deadline listed above, we will assume you are declining admission and mark your application accordingly. You will need to email [hss@summer.harvard.edu](mailto:hss@summer.harvard.edu) to be readmitted to the program (subject to the availability of space). If you accept the offer, you will receive an email within an hour regarding course registration, payment, and other tasks necessary for enrollment.

We look forward to having you with us this summer. Many students in the past have said their summer at Harvard was the best summer of their lives. We hope it will be for you, too.

Sincerely,

A handwritten signature in black ink, appearing to read 'W. J. Holinger'.

William J. Holinger  
Director of Secondary School Program
